

## LP-III

### Group-C: Assignment-1

**Name:** Sourav Kotkar

**Class:** BE-3 (S3)

**Roll No:** 41378

#### Installation of MetaMask:

**Step 1:** Go to Chrome Web Store Extensions Section.

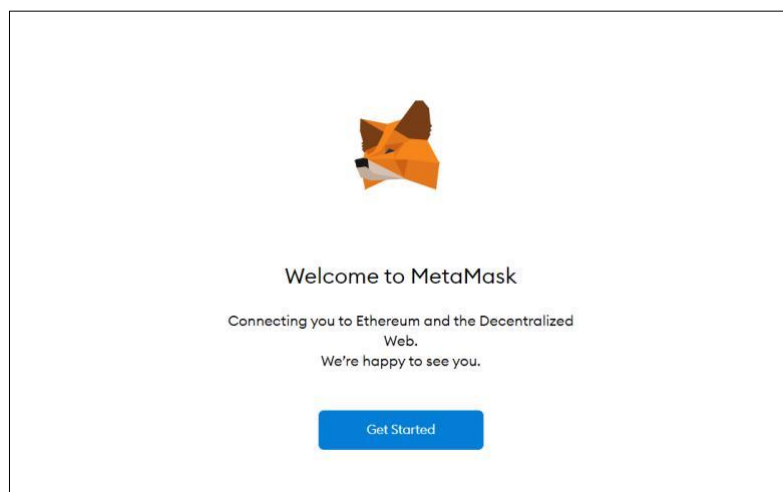

**Step 2:** Search MetaMask.

**Step 3:** Check the number of downloads to make sure that the legitimate MetaMask is being installed, as hackers might try to make clones of it.

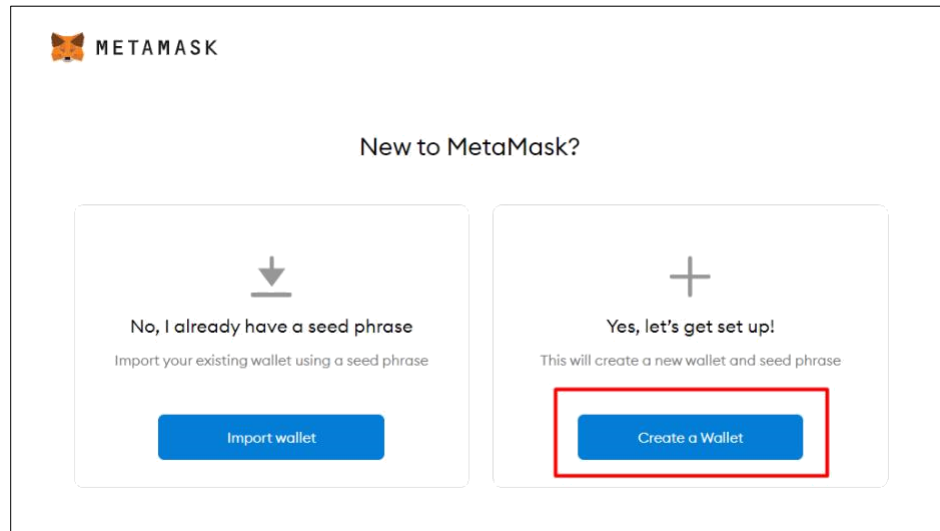

**Step 4:** Click the *Add to Chrome* button.

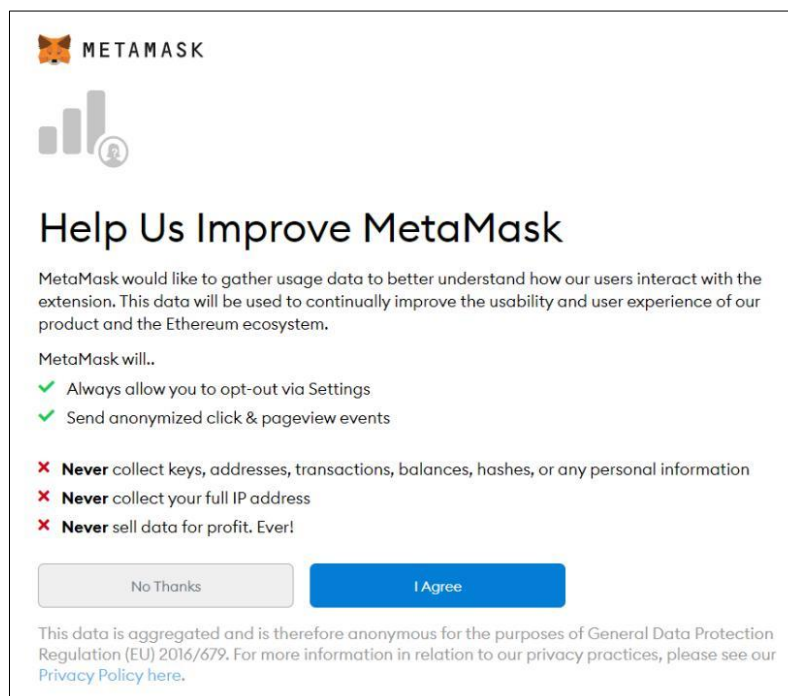

**Step 5:** Once installation is complete this page will be displayed. Click on the *Get Started* button.

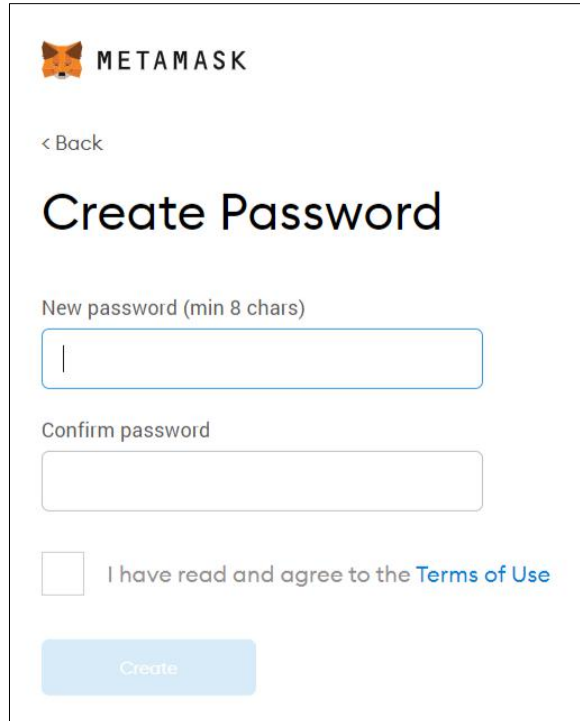

**Step 6:** This is the first time creating a wallet, so click the *Create a Wallet* button. If there is already a wallet then import the already created using the *Import Wallet* button.

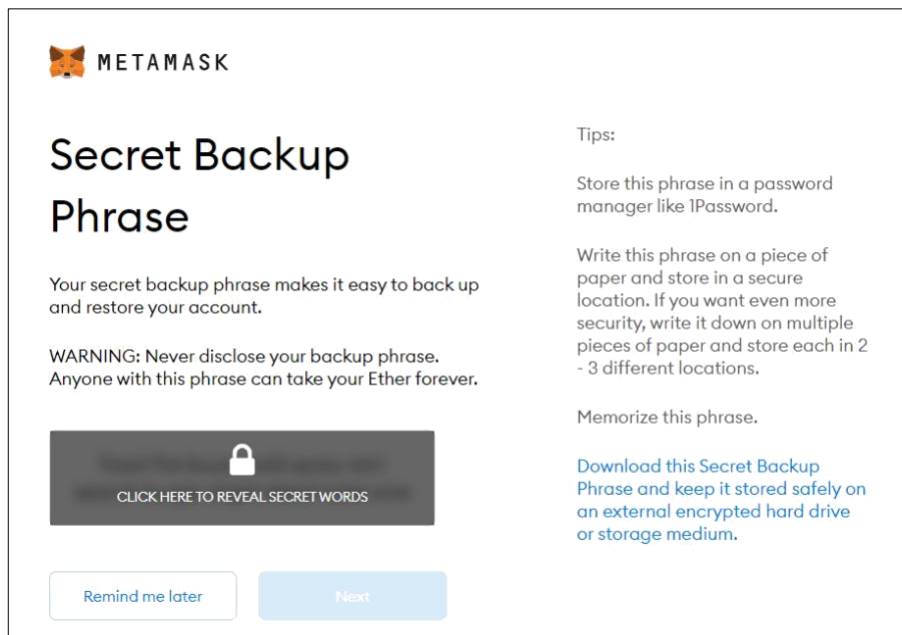

**Step 7:** Click *I Agree* button to allow data to be collected to help improve MetaMask or else click the *No Thanks* button. The wallet can still be created even if the user will click on the *No Thanks* button.

**Step 8:** Create a password for your wallet. This password is to be entered every time the browser is launched and wants to use MetaMask. A new password needs to be created if chrome is uninstalled or if there is a switching of browsers. In that case, go through the *Import Wallet* button. This is because MetaMask stores the keys in the browser. Agree to *Terms of Use*.

The image shows the MetaMask 'Create Password' screen. At the top is the MetaMask logo (an orange fox head) and the word 'METAMASK'. Below that is a '< Back' link. The main heading is 'Create Password'. Underneath is a label 'New password (min 8 chars)' followed by a text input field with a vertical cursor. Below that is a label 'Confirm password' followed by another text input field. At the bottom left is an unchecked checkbox. To its right is the text 'I have read and agree to the [Terms of Use](#)'. At the very bottom is a light blue button labeled 'Create'.

**Step 9:** Click on the dark area which says *Click here to reveal secret words* to get your secret phrase.

The image shows the MetaMask 'Secret Backup Phrase' screen. At the top is the MetaMask logo (an orange fox head) and the word 'METAMASK'. The main heading is 'Secret Backup Phrase'. Below that is the text 'Your secret backup phrase makes it easy to back up and restore your account.' followed by a 'WARNING: Never disclose your backup phrase. Anyone with this phrase can take your Ether forever.' Below the warning is a dark grey button with a white padlock icon and the text 'CLICK HERE TO REVEAL SECRET WORDS'. At the bottom left are two buttons: 'Remind me later' and 'Next'. On the right side, under the heading 'Tips:', there are three paragraphs of text: 'Store this phrase in a password manager like 1Password.', 'Write this phrase on a piece of paper and store in a secure location. If you want even more security, write it down on multiple pieces of paper and store each in 2 - 3 different locations.', and 'Memorize this phrase.' Below these tips is a blue link that says 'Download this Secret Backup Phrase and keep it stored safely on an external encrypted hard drive or storage medium.'

**Step 10:** This is the most important step. Back up your secret phrase properly. Do not store your secret phrase on your computer. Please read everything on this screen until you understand it completely before proceeding. The secret phrase is the only way to access your wallet if you forget your password. Once done click the *Next* button.

**Step 11:** Click the buttons respective to the order of the words in your seed phrase. In other words, type the seed phrase using the button on the screen. If done correctly the *Confirm* button should turn blue.

 METAMASK

## Confirm your Secret Backup Phrase

Please select each phrase in order to make sure it is correct.

burger

buyer

detail

fire

fossil

hold

rain

search

slight

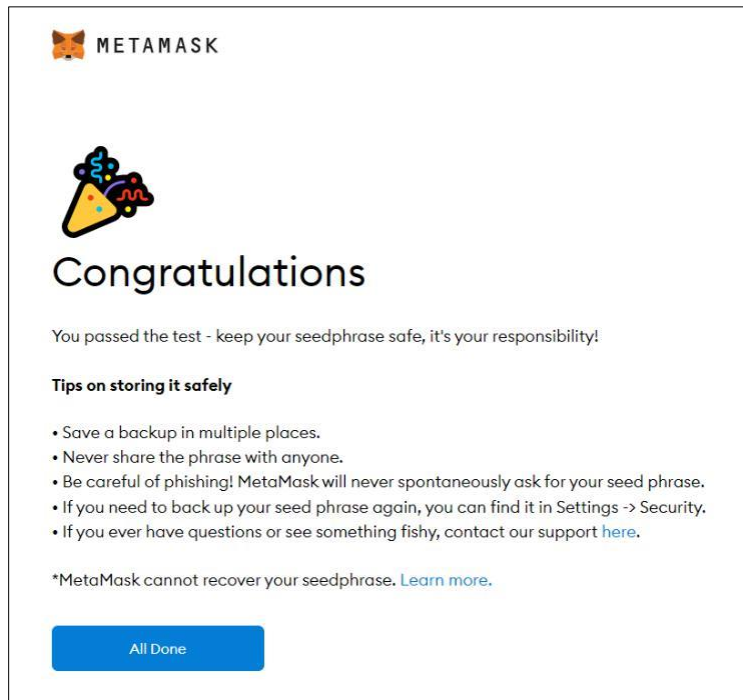

spray

tube

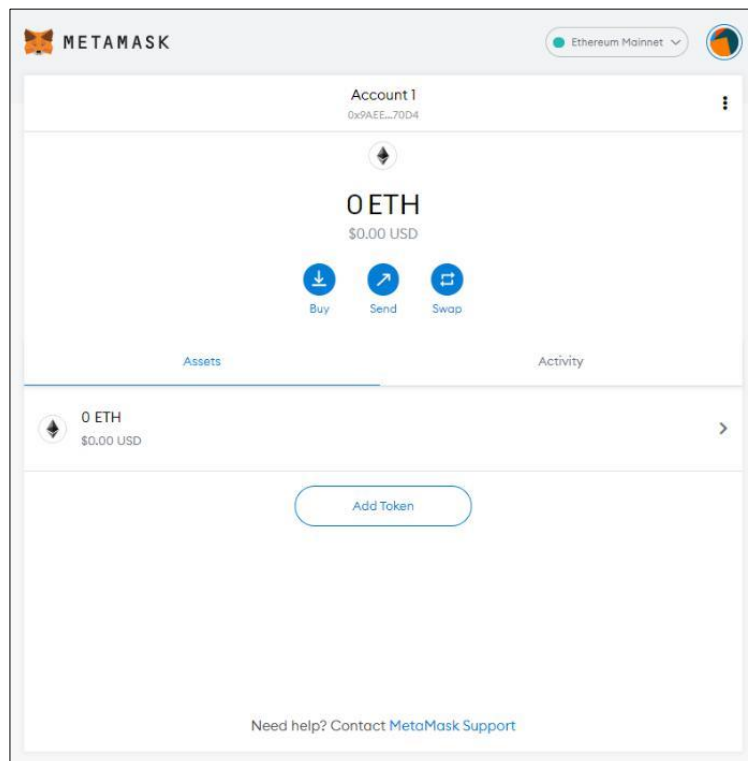

wire

Confirm

**Step 12:** Click the *Confirm* button. Please follow the tips mentioned.

**Step 13:** One can see the balance and copy the address of the account by clicking on the *Account 1* area.

**Step 14:** One can access MetaMask in the browser by clicking the Foxface icon on the top right. If the Foxface icon is not visible, then click on the puzzle piece icon right next to it.
